## INTUITIVE SKILLS OF CONGRUENCE

## WHEEL OF CONGRUENCE

**STEP 1**

Make a dot in the "pie slice" to mark how well that category's going for you. Closer to the outside of the circle or the wider space of the pie slice, the better things are going. Closer to the inside of the circle or in the narrow space of the pie slice means that area's not so good. We will often be somewhere in the middle.

**STEP 2**

Connect the dots. Draw lines to connect your dots and see what your "circle" looks like. There's no such thing as a perfect score. None of us will ever have all of our dots on the outside of the circle. These things are always in flux, and there are times when it makes sense for something to be represented as low. The point of this is to help us see what to pay attention to today as well as to look for patterns that might emerge over time.
